*Classiques 1200 Shaker Lucca floor standing
with shaker linen tower Loreto brushed brass handle*

Classique Vanities Pty Ltd

*Designing and manufacturing cabinets & tops all under one roof.
Proudly 100% Australian owned & made.*

Classique means quality you can Trust.

Using our selections personalise your cabinets to match your style.

Custom sizing is readily available as all our cabinets are made to order and manufactured in Qld. National distribution infrastructure in place.

Classique maximises storage using 400mm projection drawer runners, either in single sided or double sided soft close drawer systems. Moisture resistant board throughout with 16mm HMR board for backs & bases make for easy installation.

For more than 20 years Classique have been making fully moulded tops and 2 pac painting our own cabinets providing quality control and supplying our customers with a high standard of goods and services.

*Designed and manufactured in Australia,
Qld*

Classique can help you
transform your house
into a home.

"HAVE NOTHING IN YOUR HOUSE THAT YOU DO NOT
KNOW TO BE USEFUL, OR BELIEVE TO BE BEAUTIFUL."

900MM HAMILTON TOP

1200MM STADIUM TOP

900MM HARMONY TOP

Classique have been producing fully moulded tops for over 25 years from our factory in SE QLD. The key difference between our tops and others on the market is that we use 3mm sanitary grade acrylic giving our tops the stain resistance and depth of lustre never achievable on ceramic or polymarble tops.

Being fully moulded there are no seams or joins for mold to grow making for easy cleaning. Being a coloured polymer it can withstand everyday wear and tear specifically designed to be used in the bathroom. To this day the same product is being used by the largest bathtub and shower tray manufacturers.

Advantages of using acrylic

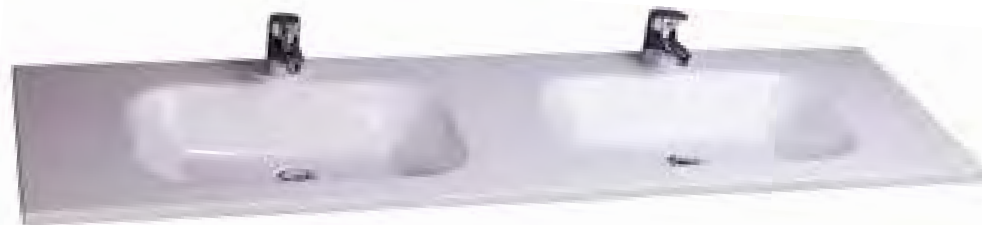

- durable & non porous
- does not crack or craze like ceramic & polymarble
- huge range of sizes available
- can be easily cut down to fit between walls
- Australian Made
- much brighter, shinier finish than ceramic or polymarble
- straight consistent edges
- scratches can be polished out easily using a car polish
- professional repairs can be carried out for major damage

Top sizes

- 600mm
- 750mm
- 900mm
- 1050mm
- 1200mm
- 1500mm single & double bowl

Our Commitment to You

Our product guarantee for every item you purchase

About Classique VanitiesPty Ltd

Classique Vanities is an Australian family owned and run company. We operate out of our 1000m/sq manufacturing plant in Slacks Creek, QLD
We design, manufacture cabinets and tops all under one roof along with our team of loyal & experienced employees.

Responsibly sourced materials

Polytec is our preferred board supplier and is an Australian made and owned product. Polytec products are manufactured from managed and renewable plantation pine. All Polytec board products are manufactured from E0 or E1 CUSTOMwood MDF and CUSTOMpine particleboard. Waste is managed responsibly through recycling programs encompassing aluminium and metals and used oils, while timber waste is recycled back into energy and packaging.

2 Pac Paint

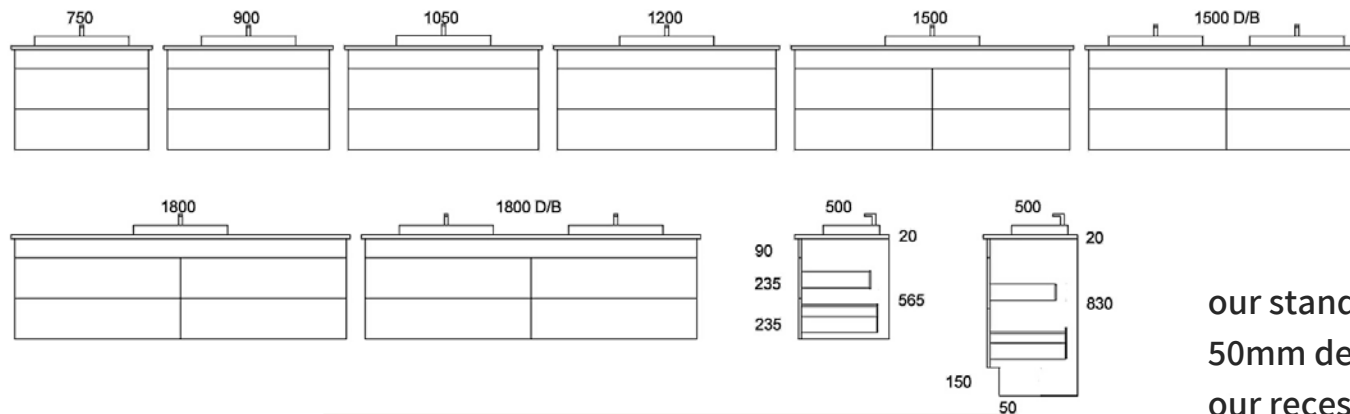

Mirotone have been our preferred paint supplier for over 15years. Classique happily endorses their paint products.
Mirotone began its life in a suburban backyard in 1935 and incorporated as a company in 1938, initially producing wood lacquers such as shellac. It has grown into an Australian-based multinational group that is still privately owned.
Over the years Mirotone has expanded into a wide range of innovative coating solutions. With consistent investment in research and development and their willingness to customise products has contributed to our business success.

Hardware

Our hardware ie hinges, drawer boxes, soft close systems & handles come with a manufacturers lifetime (14years) warranty. Daily wear & tear is not included in this period. Drawer runners should be clean of any dust or grime after installation. Small particles of dust and tiles can cause damage to the drawer runners and soft close mechanism.
Product care & maintenance :- Avoid harsh cleaning products and use a soft cloth to keep your handles clean. Salt air & dust can effect the handle finish.
